

LIVELY ANIMALS

CONCEPT, FORM, SURFACE

Master Artist Workshop with **THORLY JAMES**

Moshier Community Art Center
430 S 156TH STREET, BURIEN, WA 98148

Saturday
February 24
10:00am–4:00pm

In this one day workshop, Thorly will demonstrate her methods for keeping proportions while building an animal in an engaging and lively pose.

Try your hand at two building methods and gain understanding of the pros and cons of each. We will use a small armature kit during the workshop that will be available for purchase at cost. Please bring a lunch, images of your favorite animal including one showing at least its skeletal anatomy, and a sketchpad and pencil. All other supplies will be provided.

BIO: Thorly James studied sculpture while majoring in biology at Trinity University, followed by study in architecture. Her understanding of structures, materials, and anatomy, as well as her love for nature inform her work with clay. Over the past 20 years she's had the opportunity to learn from many local masters and was a resident at Seward Park Clay Studio before moving to Burien to establish her own studio. Thorly has shown her work from the Pacific NW to Miami.
